

CASA™ Output

Product Summary

- You can also use Casa to output sound to an external power amplifier and loudspeakers you may already own. In this case, the Casa controller becomes a pre-amp, which you can use to choose your source and control your existing equipment in the same way as the rest of your Casa system. Supplementary infrared input into the Casa system is also available.

The Casa system was awarded
Innovations Award 1998
CES/Las Vegas USA

Product of the Year 1998
Hi-Fi Grand Prix Award
Audio Video International USA

Product of the Year 1999
Hi-Fi Grand Prix Award
Audio Video International USA
