

See nothing, hear everything

CWM8.3 D is a three-way in-wall loudspeaker, conceived to offer the very best performance for a customer requiring great sound without seeing the source.

It features a decoupled Diamond dome tweeter, a 5in Continuum FST midrange drive unit and two 7in Aerofoil low-frequency drivers.

The central baffle is rotatable, so CWM8.3 D can be used in either vertical or horizontal alignment.

For optimum discretion when installed, the Continuum cone is given a dark finish.

Technical Specifications

Description	3-way in-wall loudspeaker
Technical features	Aluminium mini baffle can be turned through 90 degrees Diamond Dome, Nautilus™ tube-loaded tweeter Anti-resonance plug Flowport™ FST™ midrange unit Carbon Aerofoil bass drivers
Drive units	1x ø25mm (1in) Diamond Dome, Nautilus™ tube-loaded tweeter 1x ø130mm (5in) Continuum midrange driver 2x ø180mm (7in) Aerofoil Bass drivers
Frequency range (-6dB)	30Hz - 35kHz
Recommended Amplifier Power	200W
Sensitivity	89dB
Nominal Impedance	8Ω
Frame height	880mm (34.6in)
Frame width	254mm (10in)
Cut-out height	864mm (34in)
Cut-out width	238mm (9.4in)
Protrusion	8mm (0.3in)
Net weight	10.9kg
Back Box	BB CWM8.3
